

10 Brown Road - North Wing Renovations Ithaca NY

Renovations of a former technology testing lab space into two office suites with a common lobby. The first office suite is an attorney's office.

Proposed Urgent Care Facility

Farmington NY

Feasibility study to develop an abandoned 18,000 square foot building. Program required natural lighting at the customer waiting and reception areas. Three physicians and support staff were accommodated with allowance for future expansion, or additional tenants of similar size. Extensive repair and renovations to occur on the exterior envelop to provide a welcoming and up to date facility.

Spring 2011

Canandaigua Dental Health

Canandaigua NY

Renovations and addition to a historical Main Street building into a dental office practice. Handicapped access is provided with a covered ramp with a porch appearance. Several City of Canandaigua approvals were required for the exterior improvements. These included Site Plan reviews by the Zoning Board and Architectural reviews by the Planning Commission.
